

## **ENVIRONMENTAL ASSESSMENT OF SALTER STREET PROPERTY WATERFRONT BOARDWALK HALIFAX, NOVA SCOTIA**

Over the past 20 years, the Waterfront Development Corp. Ltd. ([www.wdcl.ca](http://www.wdcl.ca)) has been improving public access to the waterfront of Halifax Harbour through construction of a series of walkways, boardwalks and new wharves/marine facilities.

**OCL Group** was retained to prepare environmental impact assessment report for a new boardwalk and shoreline re-alignment in front of the Salter St. property along Lower Water St. in Halifax. The new boardwalk would link to existing walks to the south and north. This would provide an unimpeded route from cruise line facilities at Piers 21 and 22 north to Casino Nova Scotia and Heritage Properties.

Project entailed preparing list of VEC's and evaluating construction and operational phases. The EA was prepared to meet the requirements of the *Canadian Environmental Assessment Act*.

*Client: Waterfront Development Corp. Ltd.*
