

DEVELOPMENT OF ENVIRONMENTAL MANAGEMENT SYSTEM AUDIT PROTOCOLS FOR MARITIME COMMAND DEPARTMENT OF NATIONAL DEFENCE

OCL Group was retained to assist in the preparation of Maritime Command, (MARCOM), audit protocols for inclusion in the Shore Based Unit's Environmental Program Guide, including both compliance and management protocols as required in the ISO Standard. Development required the review and inclusion of: pertinent federal (National Fire Code, Canadian Environmental Protection Act, Canadian Environmental Assessment Act, Fisheries Act, etc. and provincial Acts, regulations, standards and by-laws for legal compliance; Department of National Defence policies such as MARCORD G-18, MARCORD G-19, and standards and Environment Canada guidelines (CCME) criteria and policies; Industrial Codes of Practice based on the types of activities present, relevant Codes of Practice and International requirements for Canadian Vessels.

Client: Dept. of National Defence
