

“INDOOR AIR QUALITY” TRAINING COURSE NOVA SCOTIA

In response to increasing incidents of indoor air quality and occupational health & safety issues in northern and eastern Nova Scotia, the Dept. of Health, organized a 1-day workshop for inspectors and staff from the Dept. of Labour, Dept. of Health and Dept. of Environment. The workshop was held in Sydney, NS. **OCL Group and the Queen Elizabeth Health Facility** prepared and delivered presentations on IAQ issues, including mould, comfort indices and volatile organic compounds.

Client: Nova Scotia Dept. of Health
